

Museum of Glass

Pays de Bitche

Attribution : Musée du Verre (M.Chérot)

A testimony of the local glassworks!

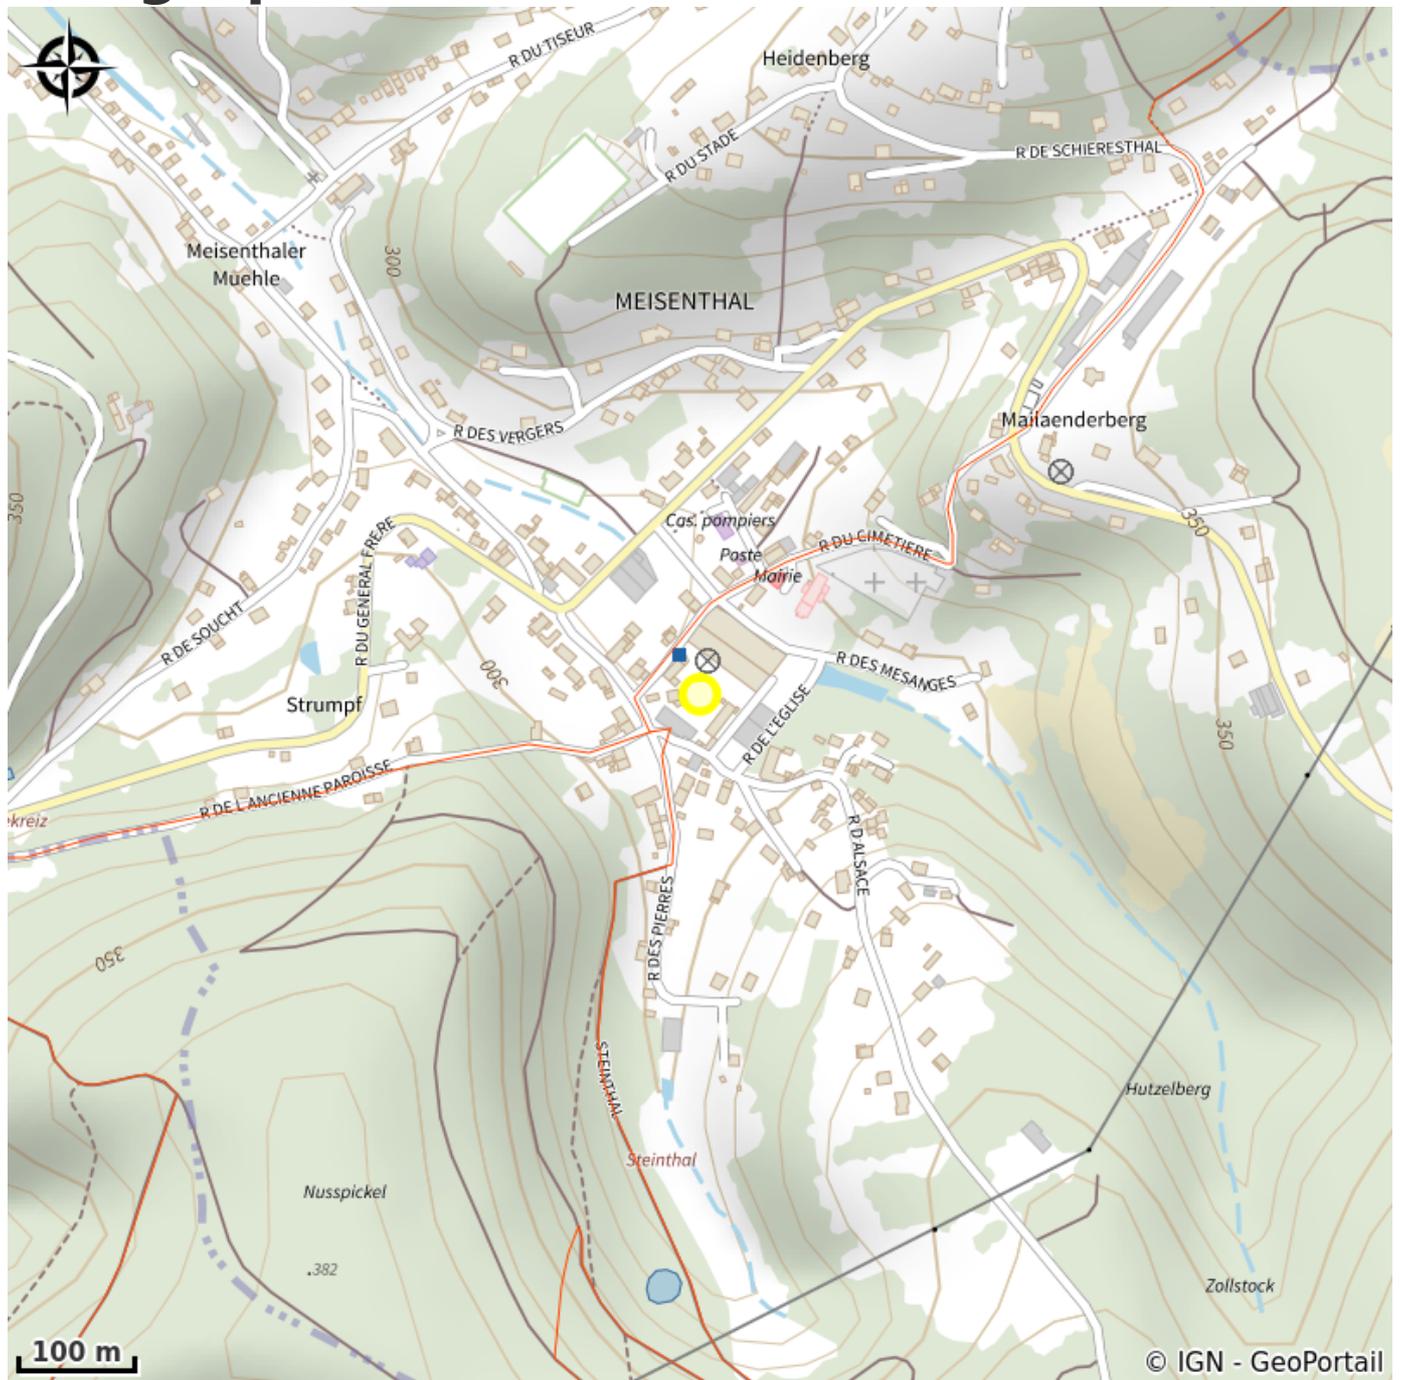

Useful information

Category : Museum

Description

The glass museum bears witness to local glassmaking. An audio-visual projection is completed by a guided tour of the exhibition "l'envers du décor", which lifts the veil on the way Art Nouveau artists approached glassmaking techniques. A hundred works by different artists of this period such as Emile Gallé, Désiré Christian, Burgun Schverer... complete the exhibition. [More information here.](#)
