# All useful information

## **Advices**

The Erbsenfelsen rock is home to the peregrine falcon and the great raven. They are very sensitive to noise during the nesting period (February to August). Please keep a low profile so as not to disturb them.

## **How to come ?**

### Access

From Bitche, follow the D662 in the direction of Strasbourg. At the restaurant "La petite Suisse", take the D162F on the left and follow the direction of the Hanau pond.

From Niederbronn-les-Bains, follow the D662 in the direction of Bitche. About 3.5 km after the village of Philippsbourg, turn right onto the D162F to reach the Hanau pond.

### Advised parking

Parking at the Hanau Pond in Philippsburg

# Environmental sensitive areas

Along your trek, you will go through sensitive areas related to the presence of a specific species or environment. In these areas, an appropriate behaviour allows to contribute to their preservation. For detailed information, specific forms are accessible for each area.

## Réserve naturelle nationale des rochers et tourbières du Pays de Bitche

Sensitivity period: January, February, March, April, May, June, July, August, September, October, November, Decembre

Contact: Email : [contact@parc-vosges-nord.fr](mailto:contact@parc-vosges-nord.fr) Tél. : 03 88 01 49 59

Créée en 1998, cette réserve naturelle\* (RN) est constituée de rochers et de tourbières dans un environnement de hêtraies-chênaies acidiphiles et de forêts de pins sylvestres

---

## Rothenburg Chateau (B)

The castle dates back to the 9th century. It was part of the County of Bitche in 1353 before becoming a den for knight-robbers, which earned him to be ravaged by the Strasbourg militia. It is in ruins since the 16th century. In 1938, he was integrated into the passive defense system of the Maginot Line and was occupied by the troops until 1940, but did not know the fight.

## Erbsefelsen rocks (G)

It is a sandstone wall with a strongly eroded base 25 to 30 meters high and almost 450 meters long, located on the Erbsenberg. Characterized by a large arch of 12 m wide and 8m high, it is a privileged site for the nesting of peregrine falcons and ravens.

**WARNING:** This site is protected! From February to early July, avoid approaching the rock to preserve the nesting peregrine falcon. Please respect the access restrictions if mentioned locally.

## Garden for the Peace of Bitche (H)

This garden, created in 2003, wants to be the commitment of a commitment of the future. Over 500m, a succession of different open gardens, each with its own history and ambition, revolves around a belvedere promenade, thus forming a floral universe combining glass, crystal, rustic plants, wrought iron ... It is part of the extension of the Jardins en Troc festival.

## Citadel of Bitche (I)

### The Citadel at Bitche

A true military master piece, the Citadel is the most important historical site in Pays de Bitche.

In the past, Pays de Bitche was the setting for many wars and invasions and of which the castle on the site of Bitche Citadel was a centrepiece. Neither the Swedish, the region of Lorraine, the French nor the Germans were able overthrow this stronghold.

In 1680, the castle was replaced by the Citadel designed by Vauban. It was dismantled in 1697, but rebuilt in 1740 by the architect Cormontaigne.

The most glorious feat was conducted by Commander Teyssier and his garrison during the 1870 Franco-Prussian war. While the rest of France was capitulated, they resisted for 230 days.

### The visit

Equipped with headphones, the visit around the Citadel takes you through the underground passages allowing you to relive the resistance against the Germans (1870-1871).

On the platform of the Citadel, the historical museum “The Men during the 1870 War” has records and photos, and a collection of arms and uniforms worn by the men on the battlefield. The recently restored Vauban Chapel exposes an original relief map of Bitche dating to 1794 which is now classified as a Historical Monument.

The Citadel is one the “Great attractions in Moselle”. The sublime Garden for Peace is at the foot of its ramparts

NOTE: the tariff for the citadel no longer includes the entry fee into the gardens. With the entrée ticket you now receive a reduced rate into the gardens (2euros/pers).

## ✿ Peatland (J)

This peat bog is part of the Natural Reserve of Rocks and Peatlands of Bitche. Peat bogs, which are original in Western Europe, are very fragile wetlands with remarkable flora such as sundew, small carnivorous plants or Sphagnum mosses that can absorb a large amount of water like a sponge. There are also many dragonflies and amphibians.
